

XIM Peel Bond™

More Filling... Less Labor!

Peel Bond™ 1146

Water Born, Clear, High Build Primer

- Interior or Exterior
- Saves Labor & Time
- Latex Topcoat in 1-2 Hours
- Soap & Water Clean Up
- Stays Flexible
- Low VOC

XIM Peel Bond™ is the best product available to renovate old, alligatored wood surfaces. Scrape or pressure wash loose paint to obtain a sound surface. Use one or more coats of Peel Bond to help level out low areas.

Perfect for:

- Wood
- Old Paint
- Stucco
- Masonry
- Aluminum
- Galvanized Steel
- Fiberglass®
- PVC Plastic
- House Siding
- Commercial Buildings
- Garage Doors
- Wood Fences
- Brick Siding
- Barns & Sheds
- Window Frames
- Shutters

Brush, Roll or Spray

XIM Peel Bond™

Premium repaint of Classic home in Shaker Heights, Ohio

Peel Bond Challenge: Blend old and new section to present a smooth uniform appearance. Inhibit future peeling.

Condition: Several layers of old weathered paint, replacement cedar shingles.

Solution: Remove loose and peeling paint; apply one thick coat of XIM Peel Bond; then one coat of premium Latex paint.

Result: Premium finish in less time with consistent appearance of old and new surfaces.

Renovation of Office Building in Fairlawn, Ohio

Peel Bond Challenge: 40 year old weathered aggregate panels that were starting to deteriorate.

Condition: Loose aggregate on panels, dingy appearance, inconsistent visual surface texture.

Solution: Remove all loose aggregate, apply one coat of XIM UMA as a bonding primer; one coat of XIM Peel Bond for consistent visual surface texture; one coat of quality latex paint.

Result: A durable and aesthetically pleasing finish for significantly less cost than replacing panels.
